Alpina ColorStick

Concentrate for tinting Alpinaweiß and Alpinaweiß Seidenglanz

Material

Purpose:

Highly concentrated tints for the individual colouring of Alpinaweiß and Alpinaweiß Seidenglanz.

The ColorStick is designed as a complete pack system. Three differing colour intensities can be achieved by adding 1, 2 or 3 sticks. For tinting only, cannot be used as a full-tone (pure).

Specifics:

Innovative drum in an exclusive design. This guarantees that the removed amount is identical every time, hence ensuring shade accuracy and reproducibility. Simply unscrew cap and force the concentrate out from the top.

Properties:

- solvent-free
- easy to mix

Product declaration to VdL-RL01:

Content: Colour pigments, titanium dioxide, calcium carbonate, water, surfactant (polymers), polyethylene glycol, additives, preservatives.

Additional information:

Alpina Hotline Tel. No. +49(0)1805 123888 (€ 0.14/min. from a Deutsche Telekom landline, different tariff for calls from mobile phones).

Shades:

28

Safety advice:

Keep out of the reach of children.

Do not inhale spray dust or spray mist. Ensure adequate ventilation during application and drying. In case of contact with the eyes or skin, rinse immediately with plenty of water.

Do not allow the product to enter sewerage networks, watercourses or in ground soil.

Storage:

Cool but frost-free.

Disposal:

Pass only completely empty sticks for recycling. Liquid material remnants can be disposed of as water-based waste paint. Dried material remnants can be disposed of as domestic waste.

Produce code for paints and lacquer:

M-DF01

Pack size: 50 ml

Procedure:

Add the number of ColorSticks required for the shade you want to the drum and then slowly mix well using a wooden paddle or small agitator.

Note:

To maintain the product properties of Alpina white, do not use more than 3 vol.% concentrate for tinting.

Lower temperature limit during application:

+5 °C for surface and ambient air.

Surface preparations:
